

Darwin Del Castillo, MD, MPH

 [darwin-del-castillo](#)
 ddelcastillo.f@gmail.com
 github.com/ddelcastillof
 Glasgow, UK

EDUCATION

Master of Public Health (MPH) – Epidemiology UNIVERSITY OF WASHINGTON	Sep 2023 – Jun 2025 SEATTLE – USA
Doctor of Medicine (MD) UNIVERSIDAD NACIONAL MAYOR DE SAN MARCOS	Mar 2014 – Dec 2020 LIMA – PERU

ADDITIONAL EDUCATION

Professional Certificate in Clinical Research UNIVERSIDAD PERUANA CAYETANO HEREDIA	Sep 2021 – Apr 2022 LIMA – PERU
--	---

SKILLS

Programming: R, Python, SQL (MySQL), Java
Cloud Computing: Slurm HPC, Linux (bash)
Tools: Quarto, Shiny (R), `renv`, Make, REDCap, Git (GitHub, GitLab)
Data Governance and Standards: UK GDPR, Safe Haven/Trusted Research Environment (TRE) working, ICH E6, HIPAA, ICD-10/ICD-9, SNOMED CT
Packages: `tidyverse`, `survival`, `lme4`, `rstan`, `mice`, `cmprsk`, `ivreg`, `metafor`
Statistical methods: Causal inference (g-methods, marginal structural models, matching, difference-in-differences), Bayesian hierarchical modelling (MCMC), regression and survival analysis, multiple imputation, meta-analysis, uncertainty estimation
Languages: English (fluent), Spanish (native)
Core Competencies: Evidence synthesis and real-world data analysis, observational study design, scientific writing, stakeholder communication

PROFESSIONAL EXPERIENCE

Research Assistant SCHOOL OF HEALTH AND WELLBEING – UNIVERSITY OF GLASGOW	Dec 2025 – Current GLASGOW – UK
- Estimating causal effects of social policy on health outcomes using Understanding Society (UKHLS) longitudinal survey data with g-methods. - Supporting a systematic review of employability schemes and their effects on health outcomes, from search strategy and screening through to evidence synthesis. - Simulating policy scenarios with SimPaths, a dynamic stochastic microsimulation model, delivering white papers for key stakeholders.	
Research Assistant – Clinical Informatics INSTITUTE FOR HEALTH METRICS AND EVALUATION	Jul 2024 – Jun 2025 SEATTLE – USA
- Conducted a systematic review of lower respiratory tract infection (LRTI) aetiology, prevalence and incidence, extracting estimates from the published literature. - Translated the extracted evidence into inputs for a Bayesian model of global LRTI burden and clinical outcomes. - Developed MCMC-based pipelines with uncertainty propagation to estimate overlap among vulnerable population subgroups in 22 high-income countries to compute summary epidemiological measures.	
Research Consultant – Health Technology Assessment SOCIAL SECURITY SYSTEM (ESSALUD)	Jan 2023 – Jan 2024 LIMA – PERU
- Generated evidence from harmonised administrative claims and inpatient electronic health records covering over 10 million insured and more than 3 million inpatient episodes, using ICD-10 phenotyping and probabilistic linkage. - Built regression and survival analysis pipelines in R with quality control. - Evaluated country-level reimbursement policy options to support healthcare decision-making.	
Research Trainee CRONICAS CENTER OF EXCELLENCE IN CHRONIC DISEASES	Mar 2019 – Aug 2023 LIMA – PERU
- Analysed longitudinal data from population cohorts and randomised trials in cardiometabolic epidemiology. - Conducted analyses with biological biomarkers to support research grant proposals and scientific outputs. - Co-authored 4 peer-reviewed manuscripts, including longitudinal analyses and machine learning models.	

LICENSURE AND CERTIFICATION

Medical Research Council: Research, GDPR and Confidentiality	2025
National Registry of Investigators, RENACYT-CONCYTEC, Investigator Level VII (P0160977)	2024
CITI Program: Good Clinical Practice (ICH E6), Human Subjects Research, Biomedical Responsible Conduct of Research	2023
Peruvian Medical Board, License No. 94534	2021

PUBLICATIONS ORCID: 0000-0002-8609-0312
